

# ACNE-PRONE SKIN

## CLEANSE

### LHA Cleanser

Formulated for skin prone to breakouts, LHA Cleansing Gel is a decongesting foaming cleanser with lipo hydroxy, glycolic, and salicylic acids exfoliates and improves overall skin clarity. Helps reduce blemishes without drying the skin.

## PREVENT

### Silymarin CF

Silymarin CF is a breakthrough vitamin C serum for oily and blemish-prone skin that combines 0.5% silymarin, 15% l-ascorbic acid, 0.5% ferulic acid and 0.5% salicylic acid to help prevent oil oxidation that can lead to breakouts, and visible signs of aging. This oil-free formula is clinically demonstrated to reduce oil oxidation by up to 76%, as well as reduce oiliness, refine skin texture, and visibly improve skin clarity and fine lines.

## CORRECT

### Phyto A+

Oil-free, lightweight moisturizer with 3% azelaic acid, 2% alpha arbutin, and 5.75% phyto botanical blend targets key factors of surface imperfections and dullness. This daily corrective treatment visibly reduces excess oil and redness, while smoothing skin and minimizing the appearance of pores for enhanced clarity and brightness.

## PROTECT

### EltaMD UV Clear

Oil-free EltaMD UV Clear helps calm and protect sensitive skin types prone to discoloration and breakouts associated to acne and rosacea. It contains niacinamide (vitamin B3), hyaluronic acid and lactic acid, ingredients that promote the appearance of healthy-looking skin. Choose from tinted and untinted formulas for use every day.

# AGING SKIN

**PREVENT**

**C E Ferulic**

C E Ferulic features an antioxidant combination of 15% pure vitamin C (L-ascorbic acid), 1% vitamin E (alpha-tocopherol), and 0.5% ferulic acid to enhance protection against environmental damage caused by free radicals that can contribute to atmospheric aging. In addition to antioxidant protective benefits, C E Ferulic improves signs of aging and photodamage, the appearance of lines and wrinkles, and the loss of firmness, while brightening skin's complexion.

**CORRECT**

**H.A. Intensifier**

H.A. Intensifier is a multi-beneficial corrective serum proven to amplify skin's hyaluronic acid levels. This unique formulation contains a high concentration of pure hyaluronic acid, proxylane™, and botanical extracts of licorice root and purple rice to support skin's hyaluronic acid levels and deliver surface hydration, helping improve the visible appearance of firmness, smoothness, and facial plumpness. This hyaluronic acid serum may be used as part of a home skincare regimen after dermal fillers.

**CORRECT**

**A.G.E. Eye Complex**

A.G.E. Eye Complex is an advanced anti-wrinkle eye cream that improves the appearance of dark circles, puffiness, and crow's feet. This silky eye cream is formulated for the delicate eye area with a potent combination of proxylane™, blueberry extract, and a complex of flavonoids and synergistic peptides. Also includes optical diffusers to diffuse light and immediately improve the radiance of tired dull-looking eyes.

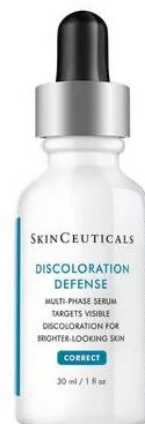

**PROTECT**

**EltaMD UV Restore**

EltaMD UV Restore is a 100% mineral sunscreen that improves sun-damaged skin and helps revitalize it. This advanced formula contains Squalane which restores skin's natural moisture and suppleness. Designed to promote a healthy complexion by improving skin smoothness, minimizing dark spots and reducing the appearance of fine lines and wrinkles. It contains antioxidants which combat skin-aging free radicals associated with ultraviolet (UV) and infrared radiation (IR) and offers high-energy visible (HEV) light protection.

## PROTECT

### LHA Cleanser

### Phloretin CF

### Discoloration Defense

### EltaMD UV Restore

Exfoliating gel cleanser decongests pores, smoothes skin texture, and brightens skin.

Phloretin CF features a patented combination of 2% phloretin, 10% pure vitamin C (l-ascorbic acid), and 0.5% ferulic acid for enhanced protection against atmospheric skin aging – environmental damage and premature signs of aging caused by free radicals from UVA/UVB, infrared radiation (IRA), and ozone pollution (O3). In addition to antioxidant protective benefits, Phloretin CF improves the appearance of discoloration, fine lines, and uneven skin tone.

Discoloration Defense is a layerable, daily-use dark spot corrector clinically proven to reduce the appearance of key types of skin discoloration in all skin tones, including hard-to-treat forms such as stubborn brown patches and post-acne marks. Formulated with 3% tranexamic acid, 1% kojic acid, 5% niacinamide, and 5% HEPES, this latest-generation formula improves the appearance of skin discoloration, brightens skin, and evens skin tone in as early as 2 weeks.

EltaMD UV Restore is a 100% mineral sunscreen that improves sun-damaged skin and helps revitalize it. This advanced formula contains Squalane which restores skin's natural moisture and suppleness. Designed to promote a healthy complexion by improving skin smoothness, minimizing dark spots and reducing the appearance of fine lines and wrinkles. It contains antioxidants which combat skin-aging free radicals associated with ultraviolet (UV) and infrared radiation (IR) and offers high-energy visible (HEV) light protection.

# SENSITIVE SKIN

## CLEANSE

### Soothing Cleanser

Calming, soap free cleansing foam with a high-concentration blend of botanical extracts to dissolve impurities while soothing compromised skin.

## PREVENT

### C E Ferulic

C E Ferulic features an antioxidant combination of 15% pure vitamin C (L-ascorbic acid), 1% vitamin E (alpha tocopherol), and 0.5% ferulic acid to enhance protection against environmental damage caused by free radicals that can contribute to atmospheric aging. In addition to antioxidant protective benefits, C E Ferulic improves signs of aging and photodamage, the appearance of lines and wrinkles, and the loss of firmness, while brightening skin's complexion.

## CORRECT

### Phyto Corrective Gel

Optimal for sensitive or problematic skin, this light oil-free gel contains botanical extracts with anti-inflammatory and antiseptic properties to help soothe and calm irritated skin.

## PROTECT

### EltaMD UV Elements

EltaMD UV Elements is a 100% physical sunscreen in a tinted, moisturizing base. It is gentle for even the most sensitive skin types, including post-procedure skin. Mineral-based UV filters work with ultra-hydrating hyaluronic acid to protect and hydrate the skin. UV Elements has a universal tint that beautifully enhances most skin tones for a more youthful appearance.
